"Products Developed Directly from the Creations of NMRA National Award Winning Dioramas by Richard E. (Ben) Bendever"

Even before 1988, when I first began conducting NMRA clinics on how to create these products, people have told me time and time again how realistic my techniques are. Now we, as *Doctor Ben's Scale Consortium*, bring to you some of the very same products that I have used in the construction of my National Award Winning Dioramas. We state that our products are some of the most original & unique scale modeling products ever, but don't take our word for it. Ask the many thousands of very happy **Doctor Ben's** customers. Please feel free to drop us a note or email us about any questions that you may have about any of our **Doctor Ben's Scale Consortium** products.
